Salisbury's Speech

The Premier Maintains That the War Office Deserves Credit For Its Work.

Mother Country and the Colonies—The Defences of Great Britain.

London, Nov. 9.—At the Lord Mayor's banquet this evening, Lord Salisbury, in the presence of 1000 guests, including United States Ambassador Choate, the members of the British cabinet and many of the leading men of England, spoke as follows of the United States elections:

"We believe that the cause which has been won is the cause of civilization and commercial honor. We believe their principles to be at the root of all prosperity and all progress in the world. Therefore we claim that we have as much right to rejoice in what has taken place as the distinguished gentleman (referring to Mr. Choate) who sits at my side."

This was followed by loud and prolonged cheering.

Lord Salisbury's incursion into the 'internal politics' of the United States was preceded by an apology, in the course of which he said: "One of the circumstances which gratifies me most during the last year is the

Very Hearty Feeling

displayed between this country and the United States. I hope Mr. Choate will forgive me if there is any irregularity in my expression. It is quite wrong for a secretary of state to make any observations in respect to the internal politics of another country, but I am soon to give up my office, and in view of this abandonment, which is close at hand, I hope Mr. Choate will forgive me for expressing the supreme satisfaction with which all of us have heard of what has recently taken place in the United States."

Mr. Choate, replying a few minutes later to the toast of the diplomatic corps, declared that Lord Salisbury had stated, with such truth, simplicity and earnestness, the result of the election that he (Choate) would not attempt to add to it, although he would venture to congratulate the noble Lord upon the fact that his remarks had been made after instead of before election. (Laughter.)

Excerpt in its reference to the United States, the speech of the Premier cast an extraordinary gleam over the gorgeous banquet. Following directly after the Colonel commanding the City Imperial Volunteers, Lord Salisbury started his hearers who caught the drift of his remarks by satirizing the war fever, although praising the courage of the soldiers and declaring that the passionate

Admiration of Military Valor evidenced by the populace must produce a change of attitude on the part of the outside world when viewing English character. Then with lowered voice and almost trembling accent, he went on to speak of the price of victory and the ravages of death, dealing especially with the Queen's bereavement in the loss of Prince Victor. Finally, with bent head and hands clasped, he uttered a hope, almost a prayer, that Lord Roberts might be spared the sorrow now hanging over him by reason of the critical condition of his daughter. The tears sprang to the eyes of the women and the men moved uncomfortably in their seats.

The Premier reviewed the events of the last twelve months. Mr. Kruger and the Emperor of China, he went on to say, had forced war upon Great Britain. He maintained that the British war office deserved great credit for the way in which it had handled these emergencies, adding: "In spite of nebulous and fictitious attacks, we should be glad to improve all the defects of the war office, and our utmost efforts will be devoted to that task—but I should rather deprecate any unnecessary examination into what has occurred. You will not add to the enthusiasm of the troops by so doing."

He dilated upon the strengthened ties between the Mother Country and the Colonies during the year, and poked fun at the delay consequent upon the European concert when dealing with China. It was not appropriate for him, he declared, to comment upon the negotiations, while in progress, but he said he would make an exception in the case of the Anglo-German compact. "That," he remarked, "represents the feelings of most, if not all, the powers allied. It is impossible to lay too much emphasis upon the

Integrity of China and the open door, and I think it a matter of great advantage that the powers should have expressed themselves in favor of fundamental principles, for if they are achieved, the issue of the China problem need not concern us very anxiously." He maintained that the idea of invading China with "our scanty force" or of approaching the stupendous task of governing China instead of leaving it to be governed by the Chinese, was most dangerous.

Relapsing into pessimism, Lord Salisbury admitted that the trend of recent events has almost put an end to the hope

of the Russian Emperor and of those who took part in the peace conference at The Hague.

His speech closed with a fervid appeal to the people of Great Britain to maintain their defences in such a perfect condition that "we shall not be exposed to any sudden interruption of the peace upon which our prosperity depends."

"The supreme condition," exclaimed the Premier, "is that no reform, no improvement, is at the slightest importance unless security against external interference is obtained by putting our defences in such a position that no accident may happen beyond our borders that shall make our security doubtful."

The majority of Lord Salisbury's hearers believed this warning referred to the necessity of French intervention.

Mr. Choate's speech consisted chiefly of a humorous sketch of the history of Downing street, which, he said, was named after a Massachusetts boy. In conclusion, he expressed the belief that so long as Lord Salisbury and Mr. McKinley continued to hold the reins of government there will be no danger of any disturbance of the friendly relations now existing between the United States and Great Britain.

MR. DICKINSON'S DENIAL.

Detroit, Mich., Nov. 9.—Don M. Dickinson of this city, postmaster-general under President Cleveland, today denied an alleged interview with him that appeared yesterday in a New York paper, in which he was made to say that plans had been decided upon at a meeting in New York for the reorganization of the Democratic party. Asked if he knew whether such a meeting had been held in New York, Mr. Dickinson said: "I decline to make any statement. I am not engaged in promoting any movement for the reorganization of the party. If a meeting is called I presume I shall be invited."

TORONTO ITEMS.

Toronto, Nov. 9.—The Lord's Day Alliance, in convention here, have agreed to the suggestion of the Maritime provinces boards that all provincial boards unite on the publication of literature from one central office in order to further the ends of the alliance over the whole Dominion.

A motion was made before the board of control yesterday by Ald. Scott, chairman, recommending that the city purchase the plant of the Consumers' Gas Co., and operate the same for the benefit of citizens. The value of the plant and real estate is estimated at \$2,500,000.

SHIP PARTLY DISMANTLED.

San Francisco, Nov. 9.—The British ship *Ellen* is reported 500 miles out and partly dismantled, as the result of severe storms. She is making for this port under jury rig. The *Ellen* sailed from here on September 23rd last, grain laden for Queenstown, and her departure was made notable by the fact that upon crossing the bar she suddenly ran into a terrific gale, and was unable to land the pilot, Capt. Scott, who was carried down the coast several hundred miles.

It has leaked out that the forthcoming Imperial German budget will provide for two new pioneer battalions of three companies each for each army corps. It will also provide 3,000,000 marks for building a harbor at Danzig. At Kiel a large anchorage and harbor for warships will be built, together with a harbor for torpedo boats, capable of holding sixty of the largest. At Wilhelmshaven two immense dry docks will be built.

A woman has a right to be positive on matters which are matters of personal knowledge and experience. Every woman who has used Dr. Pierce's Favorite Prescription for diseases of the womanly organs is positive as to its wonderful curative value, and confidently recommends it to similar sufferers.

Women who suffer from inflammation, ulceration, female weakness, or nervous diseases caused by disease of the womanly organs will find a complete cure by the use of "Favorite Prescription."

"Several years ago I suffered severely from female weakness, prostration, and menorrhagia, and used Dr. Pierce's Favorite Prescription with splendid effect," writes Emma S. Sisson, Washington, Iowa. "Glad I have not needed it for a few years past, but if I should have any return of the old trouble would surely try 'Favorite Prescription.' I have recommended it to a number of my friends. I always tell them to try a bottle, and if they are not benefited by it I will pay for the medicine. In every case they have spoken in praise of it."

FAVORITE PRESCRIPTION MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

On the Result of the Election in the United States.

London, Nov. 9.—The Spectator will say to-morrow: "The whole world has been interested in the election of a United States president. We do not, it is true, believe that Mr. Bryan, if elected, could have put back the clock and compelled the Americans to attend exclusively to their domestic affairs; but the election is stronger than the teaching of the founders of the Republic, and a rich people of seventy-six millions, situated on the Atlantic and Pacific, with the growing necessity for commerce with the Far East, must interfere with the politics of Asia, and, therefore, in the politics of the nations who are trying to eat up Asia. The United States people have been consulted and

Buller at Southampton

Warmly Welcomed by Lord Wolseley and Staff and Large Crowd of Citizens.

The Canadians Praised For Their Valuable Services by Gen. Knox.

Southampton, Nov. 9.—Gen. Sir Redvers Buller, on the Dunvegan Castle from Capetown, reported at Southampton last evening at 8.30. He was greeted by Lord Wolseley and his staff, as well as an immense assemblage of townspeople. At 9 o'clock he sat down to the mayoralty banquet, the first of a series of banquets to be given in his honor.

Stopped by Canadians.

Capetown, Nov. 10.—Gen. Knox gives credit to the determination of Col. Le Gallais never to lose touch of the Boers. He also acknowledges the valuable work of the Canadians in frustrating the Boers' efforts to retake the captured position on Komati river and in protecting the convoys and infantry from these attacks on the return march.

The Canadians gallantly stopped a charge of two hundred mounted Boers, who had come within seventy yards of their rear guard.

Presented With Medals.

Toronto, Nov. 9.—Eighty-six Toronto members of the Royal Canadian Mounted Police have arrived from South Africa, where to-night made recipients of a civic souvenir medal at Massey hall. Three thousand were present.

Western Men at Winnipeg.

Winnipeg, Nov. 9.—Five more Westerners from the Canadian contingent in South Africa returned this morning. These were Lance Corporal Wood and Private Barker and J. Moore. The other two are Private James Fletcher, of Calgary, and Private George Holbrook, of Green river, one of the British Columbia men.

Convinced They Will Win.

Marseilles, Nov. 9.—Mrs. Eloff has arrived here to await the arrival of Mr. Kruger, her grandfather, on the Dutch cruiser *Gelderland*. In the course of an interview to-day she said: "The difficulties surrounding Great Britain are so great that the Boers are convinced they will finally gain the upper hand. We have the greatest confidence in the journey of the president, who, in spite of his great age and fatigue, will travel across Europe. He only decided to come because he has in his possession a very efficacious means of action."

A FAMILY NECESSITY.

Mr. J. Wright, of 126 McPherson avenue, Toronto, says: "I am always glad to say a good word for Dr. Chase's Syrup of Marsh-mallows and Turpentine. It has been in use in our family for two years, and we have never found it fail to cure coughs, colds and chest troubles. It is our regular standard." Dr. Chase's Syrup of Marsh-mallows and Turpentine is a family necessity in the homes of Canada and the United States. 25 cents a bottle. Family size 50 cents.

STATES AND CHINA.

There Is to Be No Change in the Original Policy.

Washington, Nov. 9.—Two of the three hours of the cabinet sitting this morning were occupied in a discussion of foreign affairs necessitated in part by the fact that the President intends to exhaustively treat on this subject in his forthcoming message to congress.

Reference was made to the expression in portions of the European press that the United States policy regarding China would undergo a marked change immediately after the election, and it is authoritatively announced that after a most exhaustive review of every step of the Chinese difficulty, from its inception up to the present moment delivered by Secretary Hay, the cabinet ratified every detail, and, moreover, unanimously expressed its judgment that the policy so far pursued required without change its logical conclusion. Accordingly the present legation guard at Peking will be maintained and such troops as yet remain will be withdrawn according to the original programme, and shipped to Manila.

With this addition to his force, Gen. MacArthur is expected to renew the campaign against the rebellious Filipinos with the greatest energy.

Administration officials here think that as soon as the result of the election becomes known throughout the Philippines, the resistance to the authority of the United States will be overcome.

20 YEARS OF VILE CATARRH.—Chas. O. Brown, Journalist, of Duluth, Minn., writes: "I have been a sufferer from Throat and Nasal Catarrh for over 20 years, during which time my head has been stopped up and my condition truly miserable. Within a few minutes after using Dr. Agnew's Catarrhal Powder I obtained relief. Three bottles have almost, if not entirely, cured me." Sold by Dean & Hisecks and Hall & Co.—71.

LONDON COMMENTS.

On the Result of the Election in the United States.

London, Nov. 9.—The Spectator will say to-morrow: "The whole world has been interested in the election of a United States president. We do not, it is true, believe that Mr. Bryan, if elected, could have put back the clock and compelled the Americans to attend exclusively to their domestic affairs; but the election is stronger than the teaching of the founders of the Republic, and a rich people of seventy-six millions, situated on the Atlantic and Pacific, with the growing necessity for commerce with the Far East, must interfere with the politics of Asia, and, therefore, in the politics of the nations who are trying to eat up Asia. The United States people have been consulted and

accept their new position as a wide-world power, ready for the consequent sacrifices, and will in the future share in the general government of nations. They will govern Hawaii, Porto Rico and the Philippines, and will acquire so much of the world as is essential to the development of their power and trade. We heartily welcome the decision."

The Saturday Review to-morrow will devote its comment on the election in the United States to an argument against Great Britain identifying herself with the supporters of one political party, adding:

"How far we have already drifted into the false position may be gauged by some of the continental newspapers depicting the victory of Mr. McKinley, as that of British policy. It is folly in the nature of things to expect particular consideration at the hands of the United States government. We may expect, perhaps, just as much as we receive from any other great power, and no more."

Sir Charles's Valedictory

The Electors of Cape Breton Give Him an Opportunity to Retire.

Made No Great Effort to Hold Seat, But Worked For Party.

Montreal, Nov. 9.—Sir Charles Tupper reached here to-day. There were letters and telegrams from every part of the Dominion expressing sympathy and goodwill, and amongst them there were messages from six provinces from sitting members, offering to resign their seats and promising to work to elect Sir Charles. When asked what his decision was to be, Sir Charles was firm in declining, saying that under no circumstances, even if offered a seat by acclamation, would he consent to re-enter political life.

"I am deeply moved by these expressions of goodwill," said Sir Charles, "as he showed a budget of telegrams, 'but my decision is final. For four years I have worked, in season and out of season, for the good of the party to the best of my ability. I have shortened my life by privations incident to campaign work."

"My friends and colleagues in the house are good enough to say very kind things about me and that work. They are too considerate; but I think them cordially for the expressions of goodwill. In the quiet of my home life I will not be an indifferent spectator of public events. I will take the greatest pleasure in seeing the Conservative party, now united to a man, taking its place in the house and before the country, waging their battles by younger men—full of vigor, hope and endurance, and having behind them a good cause, securing for the people of Canada wise legislation, righteous laws and fair play to all creeds and nationalities."

"As I step out of public life, I am proud to be able to say that I never tested, nor countenanced the using of any but one policy in each and all the provinces. I defy any man to say that I have ever reflected upon any nationality or did other than help to cement the bond of union between all the races as Canadians with a common heritage and a common future. God forbid that there should be anything but peace and goodwill throughout the Dominion."

"There is a great future for the Conservative party; and its future has not in six years in four years looked as bright as to-day."

"Belief from public life is a boon, the greatest I have enjoyed for years. Remember my age. The party would not listen to the idea of my resigning. I could not insist upon doing so against a united protest, had not the good people of Cape Breton county given me the opportunity. I made no great effort to my party was to be in the fight to help my supporters, rather than to concentrate my efforts upon one seat. I have nothing but what is pleasant to say of the electors of Cape Breton; and at this moment, as I leave the political arena, my heart goes out to all Canada in the hope that peace and prosperity may abound."

HAVE YOU ECZEMA?—Have you any skin disease or eruptions? Are you subject to chafing or scalding? Dr. Agnew's Catarrhal powder cures skin and all of these, and cures itching, bleeding and "blind" piles besides. One application brings relief in ten minutes, and cures cured in ten to six nights. 35 cents. Sold by Dean & Hisecks and Hall & Co.—71.

Neuralgia

is Rheumatism of the face. Uric Acid left in the blood by disordered kidneys lodges along the nerve which branches from the eye over the forehead, and across the cheek to the side of the nose. The cause is the same as in all Rheumatism—disordered kidneys. The cure is likewise the same—

Dodd's Kidney Pills

Liberals Returned

Results Were Received Yesterday From Eight Districts of Newfoundland.

So Far Sixteen Liberals Have Been Elected to One Conservative.

St. John's, Nfld., Nov. 9.—Official returns as to yesterday's general election has been received from eight districts. Of these the Bond government, or Liberal party, won seven, the Reid-Morine, or the Tory party, securing only one.

In the Carboneau district, Mr. Maddock, Liberal, defeated Mr. Powell, Tory, who is Mr. Reid's surveyor, increasing the Liberal majority from 35 to 185.

In the Ferryland district, which returns two members of the legislature, Messrs. Cashin and Ryan, Liberals, defeated Messrs. McCulloch and Cleary, Tories, and Mr. Condon, Independent, securing a plurality of 730.

In Harbord district, which also returns two members, Messrs. Morris and St. John, Liberals, defeated Messrs. Toole and Fitzgibbons, Tories, and Mr. Lewis, Independent, with a plurality of 874.

In the Bay de Verde, formerly Tory by 250 majority, Messrs. Woods and Knight, Liberals, defeated Messrs. Mercer and Rogers, Tories, securing an aggregate majority of 60.

The count is now about half completed in St. John's. In the eastern division of the city, Messrs. Dwyer, Fairuz and Murphy, Liberals, are known to have received more than one thousand votes each, as against 300 cast for each of the three Tory candidates, Messrs. White, Ryan and Pearson. In the western division of the city, Messrs. Morris, Anderson and Scott, Liberals, are known to have received about 1,200 votes, as against 500 cast for each Tory candidate, Messrs. Ryan, Collier and Mulhally. The election of these six Liberals is certain.

In Grace Harbor district, which returns three members, Surveyor-General Day and Messrs. Harvey and Oke, Liberals, defeated Messrs. Chardow, Mann and Ross.

The returns thus far received, therefore, show the election of 16 Liberals and 1 Tory.

A FATAL MISTAKE.

Neglected the First Warnings of an Overburdened Stomach.

Dyspepsia Seized Him in Its Vice-Like Clutch—Took Warning Too Late—Dodd's Dyspepsia Tablets Would Have Saved Him.

"It's a great mistake," said the man on the stool at the lunch counter to his neighbor. "It's a great mistake to let the lesser symptoms of Dyspepsia, like Headaches, Heartburn, Waterbrash, Flatulency and Wind in the Stomach, run on, and think they will cure themselves. Those symptoms mean that the stomach is tired and cannot digest the food into blood. Consequently, the blood being poor cannot strengthen and renew the stomach."

"Then you've got to give the stomach a rest some way, eh?" said his friend. "Exactly. Now, Smith, my old partner, used to be that way. Don't think it mattered much if he had a bilious headache or heartburn after eating. Let it grow on him—ended up with Chronic Dyspepsia. Then when he found he had that, he started to starve himself, because eating hurt him. Got as thin as a rake and as bloodless as a screen door. First thing he knew consumption had him. Died last spring."

"Is it true then that Dyspepsia causes consumption?" "Why, it's a generally acknowledged medical fact," said the first speaker. "Now, what I advised Smith to do, though he would not take my advice on private matters, was to take Dodd's Dyspepsia Tablets. They are the only sensible cure for Dyspepsia. You see, they digest the food for the stomach, which thus gets a chance to recuperate. They're a good thing for any man to take after meals because then you can eat what you like best without fear of consequences."

TYING BLOOD VESSELS.

A serious difficulty presented itself in regard to the tying of blood vessels and the consequent stopping of bleeding. Hitherto the substance used for this purpose had been well-waxed strings of purse silk. After each blood vessel had been tied the ends of the silk ligature were left hanging out of the wound, and the bunch of threads thus formed maintained, like a seton, a suppurating track for a long time. Ultimately the piece of each blood vessel included in the knot of a ligature, which separated and came away. It was not until all had come away that a wound could finally close, while much hazard of renewed bleeding attached to the process. Such a method of staunching hemorrhage was quite incompatible with the aim which Lister had in view in regard to the treatment of wounds. He therefore devised a method of stitching the wound, which would produce neither septic infection nor mechanical irritation of the wound. These ligatures were cut off short and buried in the wound, the flesh disposing of them entirely by physiological processes which are well understood. This device constituted an immense improvement, and, like the development of a suitable dressing, entailed upon its author an amount of anxious labor and toilsome investigation and experiment of which very few can have any adequate idea.—Good Words.

The reformer, Szai-Tu (the leading man in the anti-dynasty party organized by Sun-Yat-Sen), who was sentenced to death in connection with the recent Yamen explosion at Canton, was repeatedly tortured in order to extort a confession from him, but he refused to make a statement in connection with the explosion.

The Diana for This Station

One Hundred and Three Thousand Dollars Appropriated For Refitting H. M. S. Leander.

How Admiral Beaumont's Appointment is Regarded in England.

A few days ago the Times announced that the steel sloop Condor had been commissioned at Chatham to relieve the Phœnix in these waters. The news now comes that it is probable that H. M. S. Diana, a second-class screw sloop, will follow the Condor to this coast for the purpose of relieving H. M. S. Leander, Capt. Fegen, which sailed for home four months ago, and which is expected to reach her destination about New Year.

The Diana, which has recently undergone repairs in the Chatham yards to the extent of £25,000 sterling, has not been commissioned yet, but the fact that she has been ordered to coal, preparatory to putting to sea, leads the naval men at Chatham to believe that her destination will be Esquimaux, and that she will shortly hoist the pennant. She is a vessel of 5,000 tons, with a natural draught horse power of 8,000, and a forced draught of 9,000.

Upon reaching Chatham, the Leander will undergo extensive refitting, the sum of £20,000 having been appropriated for the purpose. The work was to be carried out at the Chatham yards during this financial year, but as the Leander will, in all probability, not reach home before New Year, it is hardly possible that her refit, which is to include a new armament of six inch quick-firing guns, will be completed before next April. It will not therefore be a surprise should the work of refitting and rearming the Leander be deferred for another financial year.

Following the order to prepare the steel Condor for the pennant on the 1st inst., that vessel was placed in dock at Chatham, for her underwater fittings to be examined and final touches to be administered. The internal alterations to H. M. S. Imperieuse, late flagship on this station, are being pushed forward so as to complete her for the pennant as quickly as possible.

W. H. Franklin, assistant paymaster at the Sheerness gunnery school, to which he was appointed only in June, has been posted to the Condor as assistant paymaster-in-charge.

Speaking of the recent five appointments by which this station is affected, Rear-Admiral Lewis A. Beaumont has been appointed commander-in-chief of the Australian station, in succession to Rear-Admiral Pearson, whose appointment will also be effected.

Andrew K. Bickford, C.M.G., has been appointed commander-in-chief of the Pacific station, in succession to Rear-Admiral Beaumont.

In view of the inauguration of the Australian Commonwealth, special importance attaches to the selection of the officer who will have control of the squadron at the Antipodes, to the support of which it will be remembered, the Colonists already contribute. Rear-Admiral L. A. Beaumont is in his 54th year, and when Lord Northbrook was at the admiralty, in 1882-5, he acted as his private secretary. As a commodore he flew his broad pennant in the training squadron, and after three years in Whitehall as director of naval intelligence, he proceeded to the Pacific in March of last year. He wears the Arctic medal, bestowed in 1876. His successor, now that he has been moved to the more important command in Australian waters, is, curiously enough, nearly three years his senior in age and service, though his promotion has been slower.

AWAY WITH CATARRH! It's Loathsome, It's Disgusting.

Instant Relief and Permanent Cure Secured by the Use of Dr. Agnew's Catarrhal Powder.

Here's strong evidence of the quickness and sureness of that wonderful remedy, Dr. Agnew's Catarrhal Powder: "For years I was a victim of Chronic Catarrh. I tried many remedies, but no cure was effected until I had procured and used Dr. Agnew's Catarrhal Powder. First application gave me instant relief, and in an incredibly short while I was absolutely cured."—James Headley, Dundee, N. Y. Sold by Dean & Hiscocks and Hall & Co.,

The outbreak of typhoid fever in two convents in Montreal city has been traced to the milk supply obtained from a farmer named Choquet, of Beaufort. There are twenty cases so far in the two institutions. Examination showed that one of Choquet's help had typhoid in his family, and that one of his men's sons had actually milked cows while suffering from a mild attack of the disease.

Frank Jackson, aged 21, son of a vessel owner, was found dead in the Tremont House, Toronto, with a bottle of carbolic acid by his side, and a note near saying he was tired of life.

CASTORIA

For Infants and Children.

Pain from indigestion, dyspepsia, and too hearty eating, is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this.

THE FRENCH ARMY.

Colonel Says Suicide for a Soldier is Desecration.

Suicides are not unknown in the French army, but when a sergeant of the 2nd Regiment of Marines took his own life a few days after a quartermaster of the same regiment had done the same thing the colonel thought it was time to intervene. He says:

"Suicide for a soldier is desecration. It is a flight towards the country from which nobody returns. Suicide is crime. It is the abandonment of one's post—a flight before the enemy. For this that military honors are not rendered to reason it is a painful but just custom suicides. The soldier who believes in God and who loves his country would have no temptation to commit suicide."

Ex-Soldiers' Conference

Members of the Veterans' Association Hold Their First Annual Meeting.

A Banquet, Monthly Drills and Monthly Lectures on the Tapis.

There was a good attendance of the members of the Vancouver Island Veterans' Association at the first annual meeting of that body held last night in Sir William Wallace hall. The reports submitted showed the organization to be on a very satisfactory basis and the outlook for its growth most encouraging.

Lieut.-Col. Wolfenden occupied the chair, and submitted the following report as commanding officer of the corps: To the Members of the Veterans' Association of Vancouver Island:

I have much pleasure in laying before you this evening a few particulars concerning the welfare of this association, which was so successfully established in August of this year.

The roll of members now numbers 220, and includes the names of ex-members of all ranks of the several branches of Her Majesty's service. A number of these have been active service and have taken part in many of the engagements which have so added to the success of the British arms; others have served in the royal navy with equal distinction, and many have served in the militia and volunteer forces in active service on many occasions. I think we have reason to feel gratified that the roll of membership embraces as it does so many of those so fully qualified to bear the title of "Veteran."

The association had the honor of taking part in the guard of honor at the reception of His Excellency the Governor-General during his visit here in September last. There were over 40 veterans on parade on that occasion, and His Excellency, in the course of his inspection expressed himself as pleased with their appearance.

During His Excellency's stay here I conveyed to him your desire that he should become the patron and honorary colonel of the association, and as you are aware, he was good enough to accede to your wishes. His Excellency subsequently assured me personally that he was delighted to assist the association, and expressed his good wishes for its success.

Since that time two drills have been held, and steps looking towards some definite arrangements for the mutual encouragement of the members of the association will engage your attention tonight.

In order to bring the objects of the association to the notice of those eligible for membership, it has been necessary to incur some expense in printing and advertising, and the executive committee thought it desirable that the constitution should be printed and distributed to all those who have signed the roll of membership, as well as to those who are eligible as members, but who have not yet joined the association. Upwards of 250 copies have been sent out. A statement of the receipts and expenditure to this date has been prepared for your information, from which it will be seen that we have a balance on hand of \$30.45.

It is hoped that the favorable conditions under which the association has been formed will continue, and I cannot close without thanking you for your hearty cooperation and assistance in carrying out the objects for which we have mutually volunteered as members of the Veterans' Association.

R. WOLFENDEN, Lieut.-Col. Comm'r. Victoria, B. C., Nov. 9, 1900.

The following resolution, which was passed indicated unmistakably the sympathy of the Veterans:

Resolved, that the Veterans' Association of Vancouver Island do show its appreciation of the services rendered to the Empire by the members of the Canadian contingent from Vancouver Island by a contribution to the memorial to those killed in South Africa.

The chairman reported having received an invitation from the Veterans' Association in Vancouver to attend their banquet, and the following telegram was ordered to be sent to them:

It was decided to apply to the department at Ottawa for an issue of Lee-Enfield rifles, for target practice. Arrangements for the monthly drills, for the monthly lectures and for a suitable badge, were left in the hands of the executive committee.

It was decided to hold a banquet, and the following committee was appointed to carry out the preliminary arrangements: Col. Wolfenden, Major Richardson, Captains Mitchell, Wolley, and E. H. Fletcher (adjutant).

High School Field Day

Full Account of Athletic Games Held on Thursday Afternoon.

Military Evolutions—Notable Competitions, in Which Boys' Company Won.

On Thursday afternoon the pupils of the Victoria High school held their first field day in the upper recreation grounds. There were a number of visitors present, although it would have been more satisfactory to the pupils to have seen a greater interest taken in their doing. However this may be due to the short notice given.

It was originally intended to hold the sports on the Oak Bay grounds on the 13th October, but owing to the inclemency of the weather they were obliged to postpone them. A more suitable day than Thursday could not be wished for, and the entire programme was carried through without a hitch.

A very interesting and pretty part of the programme was the military drill competition for the flag presented last year by Mayor Hayward. There are three companies in the High school—No. 1 Co. (girls), No. 2 Co. (girls) and No. 3 Co. (boys), commanded by Miss M. Tully, John Coates and Sam Shanks, respectively. Major Ben Williams presided as judge, and at about 2 o'clock the commanding officers drew up their companies for the competition. The order of drill was decided by ballot. No. 2 Co. drilled first, No. 1 Co. second and No. 3 Co. third. The girls were all clad in red blouses and black skirts, and presented a very striking appearance. The order of drill was as follows:

No. 1.—Companies march two deep to the left hand west corner of the parade grounds; right about wheel; into line; front march; halt; eyes right; dress.

No. 2.—Form fours, right; front; form fours, left; front; about turn; form fours; front; stand at ease; attention.

No. 3.—Companies advance by left, quick march; retire, about turn; advance, front turn; form fours, right, left wheel; return; about turn; advance, front turn; front march.

No. 4.—Company advance; form fours, left; left wheel; rear march; halt; front.

No. 5.—Company advance at quick march; right turn; by half companies, left wheel; half companies, retire; about turn; advance; front turn; front march; forward by the left.

No. 6.—Right front; retire; about turn; advance; about turn; left turn; front turn; retire; about turn; advance; front turn; left turn; left turn; rear march; front.

After each company had gone through their manoeuvres, Major Williams called the captain of Co. 1 and 3, and requested that they should go through one of the manoeuvres again, as he thought the two leading companies about equally proficient. His request was carried out, and after carefully watching the drill, the decision was awarded the boys.

Major Williams, however, highly complimented the girls of No. 1 Co., and remarked that next year he hoped they would win the flag. He also complimented them on having such an able captain. Mr. Paul, on behalf of the three companies, thanked the Major for his services, and the boys gave him three rousing cheers. Major Williams responded by saying that he was happy to be of any service to the High school, and would always help the students in any possible way.

The companies then dismissed and the programme of races began. The races came off nicely, the potato race of the girls and the sack race of the boys being particularly amusing.

Following are the winners of some of the races: 100 yards, girls, Miss Cecil Hardie; 100 yards, boys, Master Sam Shanks; potato race, Miss C. Hardie; sack race, Master McInnes. There was also some excellent jumping by the boys.

Although the pupils are fond of their studies, they evidently pay due attention to their physical training as well. This should form an important factor in every student's education, whether they be boy or girl, and it affords considerable pleasure to note the interest taken by the pupils in such matters—thanks to the untiring zeal of Mr. St. Clair.

Hockey and football matches were also participated in, and proved very interesting to the spectators. The hockey match came off first, and the respective teams, under Messrs Fulcher and Tully, lined up for battle about 4 o'clock. The teams were very evenly matched, and at half time Miss Tully's team, which was playing down hill, had scored two goals, while Miss Fulcher's team, playing up hill, had scored nothing.

Unfortunately the unevenness of the field militated against what would otherwise have proved an equally conditioned match. To the spectator who witnessed the heroic efforts of the team playing up hill to negotiate the great obstacles that nature placed in their way in the shape of ruts and other disadvantages, the improvement of the upper school grounds commended itself as a crying necessity.

The boys then lined up for football and gave a splendid exhibition of the game. The teams were under Anderson and Shanks, and if the boys keep on with the game, there is no doubt that they will form an almost invincible team to uphold the honor of the High school, and afterwards of Victoria City. The football game terminated with a score of ten points to nil in favor of Anderson's team, although both sides played excellently.

The hockey match was then finished and resulted in a score of two goals to

two. Great improvement has been made by the young ladies, and taking all the advantages into consideration, they put up a splendid game.

After the sports were over they repaired to the laboratory for refreshments, which closed the day's enjoyment.

A WEEK OF ENTERTAINMENT.

The Grau Opera Company and Haverley's Minstrels at the Victoria.

Five nights and Saturday matinee of opera by the favorite Grau Opera Company, is what Manager Jamieson, of the Victoria theatre, has provided for his patrons, commencing Monday night. This company is well known here, having played a successful engagement of a week during the last four seasons. Since its last appearance here, however, there have been several changes in the personnel of the company, and it is said to have been considerably improved.

The company is provided with all the necessary special scenery for the proper staging of the different operas in its repertoire, and as the singers are producing different operas than when on their last trip they will doubtless do a great business here. The organization numbers over forty people, with a list of principals whose names are well known in the musical and theatrical world, among whom may be mentioned Miss Kate Michaleen, prima donna soprano; Miss Edna Thornton, contralto; Miss Minnie Fournet, prima donna mezzo soprano; Miss Carrie Ward, soprano; Joseph Smith, tenor; George Chapman,

baritone; Victor DeLacey, tenor; Frank Woolley, bass, and J. W. Kingsley and Frank Deshon, comedians.

"The Isle of Champagne," which has been selected for the opening night, was presented at the Broadway theatre in New York nearly three years ago, and breaking houses and was the talk of New York. A reproduction of the same will be given here with special scenery which is said to be something gorgeous, it being specially designed and painted for the production of "The Isle of Champagne," and its models from photographs of the City of Paris. The decorations and stage settings will be such as are only seen in the large cities. The costumes were all imported and made from the original designs.

The list of operas to be given are as follows: Monday, "The Isle of Champagne"; Wednesday, "The Captain"; Thursday, grand double bill "Cavalleria Rusticana" and "Pinafore"; Friday, "Little Treason"; Saturday, "Patience." Only matinee on Saturday afternoon.

Minstrels on Tuesday.

The eminent composer and singer, Will E. Nankville, is now the sole owner of Haverley's Minstrels, which means that the vocal department of the new company is something out of the ordinary. It contains voices of rare richness, and with such talented vocalists as Harry Lighton, America's leading minstrel tenor; John St. Roland, Sam Nankville, John Maxwell, J. J. Claxton, and three other prominent singers, forms the strongest octette of singers in minstrelsy, and will be heard on Tuesday evening at the Victoria theatre, when the New Haverley's Minstrels will be seen.

Standard Oil Co.'s shares made a new high water mark yesterday, selling in New York at 65.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Nov. 10—5 a.m.—The extensive high barometer area, with its centre of 30.70 inches over Alberta, now covers the western portion of the continent, and as the barometer remains low over California our weather will probably remain fine for another 48 hours. Fog is reported over portions of the Gulf and Sound, and the weather is due from the Pacific to the Great Lakes. From Qu'Appelle eastward to Winnipeg a snowfall of over an inch has occurred.

Forecasts.

For 36 hours ending 5 p.m. Sunday. Victoria and vicinity—Fresh or strong north and east winds, continued fair to-day and Sunday. Lower Mainland—Light to moderate winds, mostly east and north, continued fair to-day and Sunday.

Reports.

Victoria—Barometer, 30.32; temperature, 47; minimum, 45; wind, 12 miles N.; weather, fair. New Westminster—Barometer, 30.30; temperature, 34; minimum, 34; wind, calm; weather, fair. Nanaimo—Wind, W.; weather, fair. Tox. Kanispa—Barometer, 30.56; temperature, 28; minimum, 26; wind, calm; weather, fair. Barkerville—Barometer, 30.32; temperature, 32; minimum, 28; wind, 4 miles S.; weather, clear. San Francisco—Barometer, 30.08; temperature, 55; minimum, 54; wind, 4 miles S.; weather, clear.

—Drill hall Saturday night.

Str. Rosalie runs daily to Seattle. \$1.00 round trip. For 30 days.

—Grand concert at Institute hall, Tuesday, 13th inst. See advt.

—A splendid programme will be rendered at the drill hall Saturday night.

—In the show windows of Fleming Bros., Government street, are displayed several photos of the damaged portions of the Empress of Japan.

—This afternoon the paper goes to press the newly erected Burns memorial drinking fountain at Beacon Hill park is being unveiled by Lieut.-Governor Joly.

—At the last meeting of the Victoria lodge, K. of P., final arrangements were made for the smoking concert and supper to be held on the 15th of the month. An invitation was issued to the Far West lodge, who will attend the entertainment in a body.

—Rich, Blum, one of the men working in the electrical department of the B. C. Tramway Company, came in contact with a live wire this forenoon, and was thrown from the truck. Dr. Ernest Hall was called and the man was removed to the Jubilee hospital.

—In the police court this morning Lou Hopkins was fined \$18 and \$2 costs for assaulting Lou Hilgard. She paid the fine. Gus Peterson, bartender of the Louvre, was fined \$100 or three months' imprisonment for supplying Louis Howard with intoxicants. Another paid \$2.50 for his first appearance on the charge of drunkenness.

—Select "Sagar Cured Hams, 15c lb. at Jameson's, 33 Fort Street.

—The first issue of The Outlook, a new fortnightly paper which is being brought out by the B. C. Guide, came out yesterday. The paper is designed to cover the field of drama, sport, and society, with an occasional excursion into other departments. The paper is very creditably gotten up, and under the management of Mr. Smiles should have a wide circulation.

—Chief Deasy was agreeably surprised last evening by the receipt of the following from J. R. Roy, acting secretary of the department of public works, Ottawa: "Sir, I have the honor to forward to you, herewith enclosed, a cheque for the sum of \$50 in favor of the firemen's benevolent fund in Victoria, B.C., in recognition of the valuable services rendered by the city fire brigade in quenching the fire which occurred in the old custom house building there on the 5th August last."

—The remains of the late Horatio Nelson Carlow were laid at rest yesterday. The funeral took place from the residence, 106 North Park street, at 2 o'clock in the afternoon. Rev. J. F. Vichet conducted the religious services both at the house and grave. A large number of people attended the funeral, and many beautiful floral pieces were presented. The following acted as pallbearers: Messrs. W. A. Robinson, D. P. Pickard, A. B. Shorick, A. E. Mills, G. Lyle and G. Powers.

Str. "Victorian." Fare 50c to Seattle.

—The members of the St. Andrew's and Caledonia Society held a special meeting yesterday evening for the purpose of making arrangements for the annual St. Andrew's dinner, to be held on St. Andrew's Day, November 30th, at the Driford hotel.

—J. Kincaid, of Chilliwack; J. Balfour, of Langley; O. Bowman, of Sumas, and W. Ladner, of Ladner, representing the Dairyman's Association at a meeting held yesterday afternoon, decided to import two carriages of cattle, sheep and fowl from Ontario. The shipment, which they expect to arrive at New Westminster about January 1st, will be disposed of by auction.

Everybody travels on the Past Steamer Rosalie. Follow the crowd

—Another meeting of the sealers interested in the organization of a sealing combine was held yesterday afternoon, when further discussion on the subject was entered into. There are yet a number of sealers who have not signified their intention of coming into the combine, and a final meeting to determine what is to be done in the matter is being held in the board of trade rooms this afternoon.

—A meeting of the Federated Board will be held at the rooms, corner of Government and Yates streets, this evening for the purpose of dealing with the question of extending the rights of membership by the addition of hospital privileges. As the matter is of great interest to all societies or working clubs, presiding officers of lodges not represented on the board are invited to take part in the discussion with a view of bringing the question before their own lodges. The meeting is called for 8.15 sharp.

—J. B. Lash came up this morning for speedy trial before Mr. Justice Martin. A boy whom Lash had questioned in regard to the occupancy of the house testified that the prisoner had spoken to him in regard to the matter. This overturned Lash's statement that he believed a man named Harrison was the tenant, and that it was his goods which were being moved. Lash was sentenced to eighteen months' imprisonment. On sentence being pronounced he asked that he be made two years in order that he might go to the penitentiary, and not among those criminals at the provincial jail.

—St. Barnabas church concert at Institute hall, View street, Tuesday, 13th inst. See advertisement.

Str. Rosalie. Fare 50c to Seattle.

—Wm. Sowcroft, of the First Congregational church, of this city, has received a communication from J. H. George, president of the Canadian Congregational Missionary Board, with headquarters at Montreal, notifying him of the appointment of Rev. R. B. Blyth to the pastorate of the local church, to succeed Rev. Mr. Payne. Rev. Mr. Blyth has just returned from South Africa, having served through the war as a corporal with one of the Canadian contingents. He rendered distinguished services on the field and received the highest words of commendation from his superior. He is a graduate of McGill University, and also of the Congregational Theological College of Canada. He has the hearty endorsement of the London Colonial Missionary Society. He will enter upon his new pastorate by January 1st.

Where the Honey is

There you will find the bees. The large and steady increased trade at John Bros.' butcher shop is a proof that their beef, lamb, veal and a full line of sausages are giving the best of satisfaction.

R.M. S. Empress of Japan, after completing temporary repairs at the outer wharf, will continue her voyage to the Orient to-night. The injuries to the ship have been so abridged that she will not be in any more danger from bad weather than she was before the collision of the Straits. The bridge over the pilot house has been rebuilt, and a heavy planking protects the chart room on the port side from the sea, while the same improvised work has been applied to the side of the vessel. The whole undertaking has been effected in remarkably quick time and reflects no inconsiderable credit on the Albion Iron Works, to whom the work was entrusted. According to the Seattle Post-Intelligencer: "The damage to the bark, it is claimed, will reach \$30,000. Her bow was smashed in, her figurehead carried away and her rigging badly injured. The vessel and crew had a narrow escape from total wreck. The collision occurred at 2:45 in the morning. The Palmer was about twenty-five miles northwest of Cape Flattery, on the way from Honolulu to Port Blakely. The bark reports seeing the steamer ten minutes before they struck, but she did close-hauled and could not change her course. Every effort was made to attract the Japan's attention, but she did not, it is charged, make any attempt to avoid the collision. The Palmer's side lights, it is claimed, were burning at the time. It was a bright, moonlight night. The lookout saw the steamer approaching and reported to the second mate, who was at the latter ran forward and, having ascertained that the Palmer's lights were burning, called Capt. Uhlberg and all hands on deck. The steamer was bearing rapidly down on the bark, and all on board yelled in unison to attract her attention. It was useless, however, and the big liner crashed into the sailing vessel. It was at this time that Miller, the lookout, disappeared. The crew thought the bark was sinking, and were going to make a desperate attempt to board the Empress of Japan, but were prevented by the officers. The steamer glanced off and hove to, it is said, some distance from the injured ship. The latter took in salt and were around the Japan, but she, the seamen allege, resumed her voyage without waiting to hear whether or not the Palmer was in a sinking condition. Wednesday night the tug Pioneer picked up the distressed vessel and brought her to Seattle. Three minutes after I came on deck, states Capt. Uhlberg, of the Palmer, 'the steamer struck our port bow and glanced off. We did not come together again. As a result of the collision our bowsprit was bent like an elbow to port, the whole stem was carried away, and several ribs broken. There was a large hole about five feet square in our stem beneath the figurehead, where we were stove in, which admitted the water. Considerable rigging was damaged. It was a narrow escape. When we learned that the bark was not sinking we took in sail and were around for the steamer, which was lying to at some distance. She stemmed away, however, and left us.'

Steamer Umatilla arrived from San Francisco this morning, after an uneventful and comparatively smooth voyage. She brought 17 passengers for Victoria and a total of 92 for all points of call. Her freight consignments for this city included several small shipments of new oranges.

Among the passengers booked from here for the steamer Walla Walla, sailing for San Francisco this evening, are Mrs. Hadwen, Mrs. Langley, Chas. McEnie, Mr. Sinclair and wife, Mrs. Hintze, James Park and Miss Babington.

No wreckage was seen on the West Coast by the Queen City, which arrived at 6 o'clock last evening. That of which the schooner Nellie Thurston brought word to Seattle was not even reported by the Indians. The steamer had a small number of passengers on arrival. The list included Messrs. Sutton and Binn, from Wreck Bay; Capt. John Irving and C. H. Lee, who have been looking over some mineral properties on Copper Island and Barclay Sound, and Mr. Ladd, who is interested in some mines at Sechart. No gold was brought from Wreck Bay this trip. Because of the recent bad weather the lower part of the beach is not being washed, and only one of the gold saving machines have been in operation. Good results from this, however, are being obtained now as ever, and it was only a few days ago since a clean-up of \$700 was secured for less than 12 hours' work. The Queen City will sail again for the West Coast this evening.

R. P. Rithet & Co., in their monthly freight and shipping circular for October, reports: "Freight rates are firm, with an upward tendency for grain carriers; but as the high rates now prevailing are beginning to attract steamers to this business, further advances will probably be checked. There is no change in lumber freights. During the month there has been a steady decline in the price of wheat." Particulars of the Canadian sailing catch are given. The report says: "The average net schooner for the Eclair sea cruise is small as compared with previous years, caused by the unfavorably weather during the whole season. The sealers report that there is no diminution of the seal herds. The total catch for the season is 35,548 skins, compared with 35,471 in 1899."

Steamship Victoria arrived from the Orient this morning with a number of passengers and about 250 tons of general freight. She left Yokohama on October 27th, and during the first three days encountered favorable weather. Subsequent to that time, however, the weather clerk provided a series of heavy gales. On the sixth day out the liner Tacoma was passed, hove to owing to the adverse conditions. The Victoria had on board twenty-five Chinese. Among the cabin passengers were Messrs. Ogden and Palmer, of Philadelphia, missionaries from China; Dr. Cooper, a lady physician; Miss Hamilton and two other lady missionaries from Japan; and H. J. John and wife, of Yokohama.

A Vancouver paper states that the steamer Alpha left on Thursday night for Union, where she will coal, preparatory to a trip with British Columbia salmon to the Orient. The Alpha will go from Union to the Fraser river where part of a load of salmon will be taken on, and complete her cargo in Vancouver and Victoria.

Steamer Boscowitz will leave for the North this evening, carrying among her passengers a number of miners bound for Princess Royal Island.

Steamer Cottage City will sail for Alaska points on Monday morning, touching at the outer wharf as usual on her way north.

Bark J. D. Peters passed up this morning in tow of the tug Lorne for coal cargo.

Steamer Chatter left Vancouver at 1:20, and connected with the train.

Steamship Germania arrived at New York yesterday at 9 a.m.

IN EVERY MINING CAMP

Dr. Chase's Ointment Finds a Hearty Welcome as a Cure For Chafing Sore Feet, Itching Skin and Piles.

In the mining camps of British Columbia there is not a single preparation to be found that is so highly prized by the miners as Dr. Chase's Ointment, and no wonder, for it is specific for the very ailments from which the miner most frequently suffers.

From being continually on his feet and wearing heavy boots, nearly every miner suffers from chafed, sore and burning feet, a trouble which is promptly cured by the use of Dr. Chase's Ointment. The dampness to which the miner is exposed is conducive to itching piles, and for this torturing disease Dr. Chase's Ointment is the only actual and guaranteed cure obtainable.

To prove to every miner the wonderful soothing and healing merits of Dr. Chase's Ointment, we shall send a sample box free of charge to any miner sending his name and address and a two-cent stamp to pay postage. Mention this paper. Dr. Chase's Ointment 60 cents a box, at all dealers or Edmanston, Bates & Co., Toronto.

The indigo production in Java is rapidly falling off. Many of the planters are growing tobacco instead. The artificial product is steadily displacing it. A new process is being used, however, which permits of obtaining a higher percentage of coloring matter from the leaf and also produces a purer indigo.

Proceedings Stayed.

Railway Scheme in Abeyance Pending Recast of the Agreement.

Procedure with the preliminary steps for the submission of the railway by-law to the people has been stayed temporarily, owing to the fact that the mayor declines to affix the corporation seal to the agreement. This statement was made by the mayor at the meeting of the council held yesterday afternoon. His Worship stating that he was acting on the advice of the city barrister.

It is understood that this will involve only a temporary delay, as the agreement which has been passed upon by the council will simply have to be recast in the form of a by-law, to make it acceptable, and to place it within the power of the council as interpreted by the city barrister.

Consideration of the matter was deferred until Tuesday evening next, when it is intended to proceed with the proposal along the lines suggested.

An automobile accident insurance association is about to be formed in New York city. Its objects will be to insure its policy holders against accidents and to defend the innumerable law suits which have been brought against motorists all over the country, often on very slight provocation.

Germany is not free from leprosy. The malady is actually increasing. In Prussia, in the district of Memel, close to the Russian border, 22 cases have been discovered so far. At Hamburg 10 cases have been found; in Mecklenburg-Schwerin, one.

One of Our Handsomest Men's Suits, \$18.00

There is something about a handsome suit that appeals to all men alike. Place one on any man and he'll pass in good company anywhere. It lends an air of respectability that can come from no other piece of wearing apparel. This eighteen dollar suit is one of our very best, best tailoring, best linings, best trimmings. The coat has French facings, four rows of satin piping hand sewn into shape collar, and an interlining of soft canvas, which does away with that stiff appearance (so common in most tailor made coats), yet keeps it in shape as long as coat is worn. It's a suit that for fine finish, good wearing qualities and handsome appearance cannot be beaten.

Waiting For the Word

In almost every home someone is just waiting for another consent to begin the study of one of our simple stringed instruments. And the home will be a thousand times brighter when it resounds to the merry tone of a

WASHBURN

A DEAD GAME SPORT.

1—Mr. Stocum—My son, I just saw you peeping under that box. What have you under there?
Johnny—It's a new kind of hen that Gaff Heeler give me.

2—Mr. Stocum—(raising the box) Yes, I see. Your father's too young to know the difference between a new kind of hen and an old game cock. Boy, I—

3—Stop him! He'll kill that gobbler sure as fate!

4—Gracious! I believe he's too much for both of 'em.

5—I'll take a hand in this.

6—There! See what yer gift fer 'em! Git me the ax.

MINCE-PIE AND THE OCULIST.

It is interesting to note that the partaking of mince pie at evening may induce bad dreams, but it is hardly profitable to speculate deeply why my dream took the form of a leering demon with the impolite habit of squatting on my chest. The story that dreams are made of is not susceptible of that type of analysis. The most generous allowance must be made for coincidences and irrelevancies, and it must be constantly remembered that the obscure phenomena of psychology, and indeed the phenomena of more thoroughly established science, cannot be expected to pass the test of detailed and concrete combinations of circumstances. In other classes of knowledge the temptation to demand such explicit explanations of observations and experiences is not as strong because the absence of an equally strong personal interest; but that clearly does not affect the logical status of the problem. The reply to this argument I can readily anticipate; and I confess that my admiration of "Hamlet" is somewhat dulled by reason of that ill-advised remark to Horatio about there being more things in heaven and earth than are dreamed of in our philosophy.

The oculist always seizes upon that citation to refute the scientist. He prints it as his motto on his books and journals, and regards it as a shrewdly chosen will in time effect the destruction of the rabble of scientists and reveal the truth of his own psychoharmonic science or heliocentric astrology. It is one thing to be open-minded and to realize the incompleteness of scientific knowledge and to appreciate how often what was ignored by one generation has become the science of the next; and it is a very different thing to be impressed with coincidences and dreams and premonitions, and to regard them as giving the key-note to the conception of nature and reality, and to look upon science as a misdirected effort. Such differences of attitude depend frequently upon a difference of temperament as well as upon intellectual discernment; the man or woman who flies to the things not dreamed of in our philosophy very commonly does not understand the things which our philosophy very credibly accounts for. The two types of mind are different, and (I am citing Prof. James) "the scientific-academic mind and the feminine-mystical mind spring from each other's facts just as they fly from each other's temper and spirit."—Joseph Jastrow in Popular Science Monthly.

GREAT LUCK OF AN EDITOR.

"For two years all efforts to cure Eczema in the palms of my hands failed," writes Editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Ruptures, Sores and all skin diseases. Only 25c. at F. W. Fawcett & Co.

The Sultan possesses no crown, coronation being unknown in Turkey.

POOR AND RICH OF ITALY.

In writing of "The Assassination of Mamma: Its Social and Ethical Significance," in the North American Review, Dr. F. D. Oswald shows that in the middle-ages not a few of the Italian warlike princes were munificent to the degree of good quality, and Italy at that time was a sparsely settled country, abounding with mountain parks and free hunting grounds. A very different state of things prevails now:

"Forest, fun, and freedom have now vanished together. Italy has become a treadmill, where hundreds of thousands can by incessant labor just earn enough to tell another day. The prospect of teaching a land where they can enjoy a few leisure hours between sleep and drudgery impels whole families to stultify themselves in food to save the price of an emigration ticket. Holidays, in the ancient sense of the word, are known only from tradition in some agricultural districts of the peninsula."

Dr. Oswald has seen Spain and North Africa, but never anything to resemble the dreariness, the joylessness, and hopeless equality of some villages in Southern Italy.

The enjoyments of the Italian privileged classes, on the other hand, have become more comprehensive from century to century:

"Science has aided art in beautifying the country south of the Apennines. In the Engadine hills there are villas rivaling in splendor the palaces of the Spanish Moriscos. Game has been gleaned from the wilderness of the mountains and fenced in the hunting preserves of the rich. One by one the means of secular enjoyment have become class privileges. Hunters, caught red-handed without a license costing \$5 a month, are jailed like highway robbers. Dancers, picnickers, arrangers of musical entertainments are charged another license. The right of free assembly has been curtailed to prevent indignation meetings, and even the dog tax has eliminated the poor man's pet. The privilege of fishing, like that of hunting, has to be paid for in advance."

Thus, deprived of more pleasant pastimes, Pietro Farina has, Dr. Oswald contends, had time to solve the problems of existence, with such results as might have been anticipated.

THE LARGEST PRISON.

France's new prison at Fresnes, some eight miles from Paris, is the largest in the world.

It takes the place of three old prisons, is situated in a healthy district, and covers, with its main buildings, flower gardens and villa residences of officials, over half a square mile.

The prison, unlike our penitentiaries, is not built on the star plan, but consists of five rectangular blocks, one of which is the infirmary.

The plan is the cellular, and the number of cells reaches the huge total of 1,824. As, however, accommodation is provided on the "association" system for 400 privileged prisoners, the total criminal capacity of the Fresnes prison is 2,224.

As a sanatorium for the criminal Fresnes is as well adapted as his or her present home it boasts the proud record of being only half full, for crime, or at least punishment by imprisonment for crime, is diminishing in France.

The system at Fresnes is interesting—probably the most worthy imitation. The authorities believe in fresh air and sunshine, those sworn foes of the microbes and friends of health. Hence, as already stated, the prison is a model sanatorium. Otherwise the criminal is gently educated. He works at some trade, and even purchase from the proceeds of his work extra food and personal requirements with the exception of tobacco.

When the prisoners go to worship, which is not compulsory, or to "school," which is, they wear hoods so as to prevent mutual recognition on release. The reason for this apparent inconsistency is not clear.

Even the officials receive instruction on such subjects as the prevention of crime and prison discipline, and as a result of this the excellent idea of the whole prison is admirably carried out.

A final feature of Fresnes is the severe simplicity of its architecture, compared with the baronial style of many of our prisons.—London Express.

"Of all tonic preparations, 'Vin Mariani' is the most potent for good."

Every physician throughout the world knows that during the last thirty years Mariani has popularized Coca, and that Vin Mariani is the original preparation.

VIN MARIANI is everywhere recommended by the medical profession as the standard, uniformly reliable tonic-stimulant. At all druggists. Refuse substitutes. HUDSON'S BAY CO., Agents for British Columbia.

MUNYON'S RHEUMATISM CURE

Munyon's Rheumatism Cure is guaranteed to cure acute or muscular rheumatism in from one to five days. Sharp shooting pains in any part of the body stopped by a few doses. A prompt, complete and permanent cure for lameness, soreness, stiff back and all pains in hips and joints. Chronic rheumatism, sciatica, lumbago, or pain in the back are speedily cured. It seldom fails to give relief from one to two doses, and almost invariably cures before one bottle has been used. Price 25c.

A separate cure for each disease. At all druggists, mostly 25c a vial. Personal letters to Prof. Munyon, 1508 Arch st., Philadelphia, Pa., U.S.A., answered with free medical advice for any disease.

A fast passenger train and a double-headed freight collided at Hodges Station, on the Southern railway, twenty miles east of Knoxville, Tenn. Engineer Thomas was fatally injured, and Engineer Richard Parrott, Mail Clerk I. N. Thomas, W. Roberts and T. S. Harris were injured.

THE THREE ELECTIONS.

(Continued from page 1.)

The Old Church Rules.
There are many indications of secession,
though this does not apply to the Low-
lands, where the amalgamation has been
well received.

Holy Trinity Church, situated close to
the Tower of London, in which is one of
Washington's ancestors' tombs, bearing a
coat of arms which is supposed to be
the origin of the Stars and Stripes, is
threatened with destruction unless £200
are subscribed for its repairs. What
makes the church of interest to Ameri-
cans is the tablet erected to the memory
of Col. Legge who married Eliza Wash-
ington, who died in 1670, surrounded by
the Washingtons, consisting of five
alternating bars of red and white, above
which are five pointed stars. These, it
is said, suggested to George Washing-
ton, the American national flag.

The latest discovery of successful Ameri-
can enterprises in England is in the

Boot and Shoe Trade.

Daily the American article is gaining
headway. One agent, after three years'
work, got 1,200 large customers, his turn-
over this year amounting to many thou-
sands of pounds. According to the Daily
Mail, the ability of the American firms
to compete so successfully is chiefly due
to the "superiority of the American foot,
which are modelled on the human foot,
and also to the large outputs of well re-
gulated factories, in which work is done
by the piece instead of on time, as pre-
vails in Great Britain, with the very
latest machinery.

NOTED BUSINESS MAN DEAD.

R. G. Dun, Head of Firm of R. G. Dun
& Co., Passed Away This Morning.

The following telegram was received
by the local branch of the firm of R. G.
Dun & Co., this morning:

Toronto, Ont., November 10th, 1900.

R. G. Dun & Co., Victoria:

Dun passed away peacefully at 1:30
this morning.

R. G. DUN & CO.

Died in New York.
New York, Nov. 10.—R. G. Dun, head
of the mercantile firm of R. G. Dun &
Co., died in this city early this morning
of cirrhosis of the liver.

Robert Graham Dun, senior member
of the great firm of R. G. Dun & Co.,
has been a prominent figure in the busi-
ness world for nearly half a century.
Mr. Dun has been associated with the
agency since 1851; in 1854 he became a
partner, and in 1859 purchased the entire
interest, and since that time his name
has been at the head of the firm which
has acquired a world-wide reputation.
When he first became connected with
the business it was in its infancy and its
wonderful development and growth are
largely due to his individual efforts, and
untiring application to the ever-increas-
ing details of management. He was born
in Ohio in 1824, his father and mother
being of Scottish parentage. His father,
Robert Dun, was educated for the minis-
try and settled in Chillicothe, Ohio, in
1815.

R. G. Dun began his career in a coun-
try store at a salary of \$2 per week.
By reason of his business ability and
practical ways he soon became a partner
in the establishment. From this time
his rise was rapid and a few years later
saw him in a large mercantile agency in
New York city, in which he subsequently
became a partner. In 1859, as before
mentioned, he purchased the entire in-
terest and has continued sole proprietor
ever since. During the past twenty-five
years he has been assisted by his present
associate, a nephew, Robert Dun Doug-
lass. The latter has direct charge of the
various agency departments in this and
foreign countries.

MACARTHUR IN COMMAND.

He Will Personally Direct the Opera-
tions Against the Filipinos.

(Associated Press.)
New York, Nov. 10.—Major-General
MacArthur will personally direct the
vigorous military operation to be directed
against the Filipino insurgents, says
a dispatch to the Herald from Wash-
ington.

Major-General F. C. Bates will prob-
ably be assigned to duty in Manila as
the executive head of the military govern-
ment in the Philippines during the
absence in the field of Gen. MacArthur.

LOOKING FOR A LEADER.

Messrs. Borden and Casgrain Are Each
Mentioned as Successors to Sir
Charles Tupper.

(Associated Press.)
Toronto, Nov. 10.—It was stated here
late last night that local Conservatives
were freely considering the name of R.
L. Borden, Q. C., M. P. for Halifax,
as leader of the Conservative party in
succession to Sir Charles Tupper.

Montreal, Nov. 10.—As wired last
evening, the name of T. Chase Casgrain,
M. P. for Montserrat, is another
name mentioned as a likely successor to
Sir Charles Tupper. Mr. Casgrain is
one of the most pleasing personalities

among the French-Canadian politicians
on the Conservative side, and a fluent
speaker in both languages. The object
of his selection would, of course, be with
a view to offset the Laurier influence in
Quebec. Mr. Casgrain is a member of
a big legal firm in this city.

FAST TRAVELLING.

C. P. R. Train Runs 112 Miles in 110
Minutes.

(Associated Press.)
Montreal, Nov. 10.—The Canadian Pa-
cific made a record run today between
Montreal and Ottawa, making the 112
miles in 110 minutes. The record trip
was made by Lord Strathcona on a
special train which left Windsor street
station at 8:37 a.m., reached Vaudeville
24 miles, in 26 minutes, the rate being
53 miles per hour, and the run thence
to Ottawa, 88 miles, was made in 84
minutes, at a rate of 63 miles per hour.
Deducting ten minutes for stops and
slow downs while passing through yards,
the actual running time was 100 mins.
for the 112 miles. The run was made
on a heavy track, snow having fallen all
night, which makes the speed all the
more phenomenal.

NOTES FROM NANAIMO.

(Special to the Times.)

Nanaimo, Nov. 10.—A serious accident
occurred at Alexandria mines last night
whereby John Baker and Frank Rich-
ardson were seriously injured. A train of
cars jumped the track and struck them.

Rex Cooper, bookkeeper of the New
Vancouver Coal Company, and Miss
Gilligan were married this morning.
Corrected returns of this district now
stand: Smith, 1,267; Wolley, 909; Sloan,
838, with only one polling place, Quan-
tino, to hear from.

BRIDGE RIVER MINING DEAL.

English Syndicate Purchase the Lorne
and Monarch Groups of Claims
on Caldwell Creek.

A number of persons, interested in the
free-milling mining claims on Caldwell
creek, Bridge river, met in Vancouver
on Wednesday last and disposed of their
property to an English syndicate.
The Lorne group was disposed of for
the sum of \$150,000, and the Monarch
claims for a large amount. The first
payment of \$100,000 on the property was
received by the owners of the respective
groups, and work will be proceeded
with in a short time.

This deal means a great move for the
town of Lillooet, which has been kept
back for many years through the lack of
capital to open up the valuable mines in
the interior. A number of citizens of
Victoria are interested in the deal. Since
1898, when Mr. Downie, of North
Stanhope, discovered gold on Bridge river,
it was supposed that rich mineral ledges
existed in the neighborhood. The first
find was made by Nat Coughlin in 1896.
He discovered a quantity of rich gold
and traced it for some distance along a
steep hillside. At a depth of five feet
he struck the ledge, on what is known as
the Ida May claim, which was so
rich with free-milling rock that he dis-
posed of the property at once for a high
figure. Henry Cargill soon after be-
came the owner of the property, from which
a large sum has been extracted with a ten-stamp
mill.

The manager of the Bank of B. N. A.,
in Vancouver, is proudly exhibiting a
gold brick from the Bon d'Or, which
weighs over two hundred ounces, and
was sent out a few days ago. The
Lorne group is seventy-five miles from
Lillooet, and adjoins the Monarch prop-
erty. The quartz shows free gold, vis-
ible to the eye, and the veins are trace-
able for miles. The Monarch group was
discovered by E. J. Taylor, who was as-
sociated with L. G. Burns for many
years. Burns was the head of the police
force in the Lillooet district, and
was a terror to the evil-doers and a
most consistent official of the provincial
force. The property was acquired by
the B. C. Gold Property Company, with
head offices in this city, and the original
owners held a large majority of the
shares. Messrs. Burns and Taylor were
in Vancouver negotiating the sale, and
left for Lillooet on Friday.

The most interesting part of the
whole transaction is the fact that the
locators, all men who have been mining
in the Bridge River country for years,
are benefited financially through the
disposal of the property. This means
that they will return to the goldfields and
continue in the work of prospecting and
developing the large area of almost un-
known ground in the interior of the
country. The introduction of English
capital will prove a great value to Lillooet,
and it is probable that a second
"Cripple creek" will be the result of
the development work about to be carried
on by the English syndicate.

**Bald
Spots**
Without help,
a bald spot never
grows smaller. It
keeps spreading, until at last your
friend says, "How bald he is get-
ting." Not easy to cure an old bald-
ness, but easy to stop the first
thinning, easy to check the first
falling out. Used in time, bald-
ness is made impossible
with—

**AYER'S
HAIR
VIGOR**
It stops
falling,

vice at the W. C. T. U. mission hall, 17
Johnson street, at 8:30 p.m. All men are
invited. No collection.

THE POLICE.
The result of the official count by Re-
turning Officer Brown this afternoon was
as follows:

R. L. Drury 1,667
Thos. Eadro 1,775
E. G. Prior 1,872
Geo. Riley 1,640
Spoiled ballots, 33; rejected ballots,
25. Majority for Conservatives, 118.

SPORTING NEWS.

RUGBY FOOTBALL.
PLAYING AT NEW WESTMINSTER.
At Westminster this afternoon the Van-
couver and Royal City teams are lined up
in playing array, the latter being as fol-
lows:

Mallins, Turnbull, Gifford, Gordon, Corn-
wall, Steel, Cotton, Kattel, Mahoney, Gal-
braith, B. Peel, Gifford, Duncan, Millard
and Wilmut.

The Vancouver team will be picked from
the following players: O. Bontt, Tait, War-
ren, Flood, C. Marpole, Ellis, Spink, D.
Marpole, Worsnop, Springer, C. Jenkins,
Kilham, Lafferty, Harkness, Jenkinson, E.
Bolt, Foster and Laursen.

FOOTBALL.
MANY MATCHES TO-DAY.
A plethora of matches is taking place this
afternoon. At the Caledonia grounds the
Victoria Rugby and Association teams are
playing their game of Rugby, and, as the
weather is ideal and both aggregations
comprise men of undoubted ability on the
field, the match will, for excitement and
vigor, justify the expectations of the ad-
herents of both teams. At Beacon Hill
this afternoon the Boys' Brigade and Cen-
tral school teams are playing another of
their spirited Association games, while
the second junior team of the Boys' Bri-
gade and a team from St. Louis College
are chasing the sphere in another portion
of the play grounds of the hill. At the
Caledonia grounds the Columbias and the
team from the Navy are trying conso-
lations. The first of the junior Rugby
League matches, which was to take place
today between the High school and the
Association school has been postponed until
Saturday.

ASSOCIATION MEETING TO-NIGHT.
The British Columbia Intermediate Foot-
ball Association will hold a meeting this
evening at 36 Government street.

TEACHERS' INSTITUTE.
Interesting Papers Read at the Regular
Monthly Session Yesterday.

The regular monthly meeting of the
Victoria Teachers' Institute took place
yesterday afternoon in the Y. W. C. A.
building. A considerable number of teach-
ers were present, and after the usual con-
sultations, Miss E. G. Lawson read a
paper on "Primary Reading."

The writer detailed the method used by
her in teaching reading in the primary
classes. Young children must be taught to
get ideas and then to give vocal atten-
tion to the same. Their lessons should be
short and interesting, and not confined to
the chart. It was of great advantage to
draw a picture of something and write the
name below. Young pupils recognize
script letters better than printed ones.
This valuable paper was discussed by W.
N. Winship, L. Tait, Miss Fraser, Miss
Watson, D. S. Tait and Miss Cameron.

Mr. Fraser then read a paper on "How
to Develop a Taste for Reading." The
teacher himself should have a wide range
of reading and read an interesting part
of some good author to the pupils. This will
interest the pupils and encourage them to
read the author for themselves. The writ-
er put a plea for a reader that is litera-
ture and not merely a mass of miscellane-
ous facts. Miss Watson, J. M. Campbell
and L. A. Campbell complimented the
writer, and added useful suggestions of
their own. The Institute then adjourned
till January.
